

# BashAzon III

## HERBICIDE

### Post-Emergence Herbicide

For homeowner use to control broadleaf weeds, annual sedges, and yellow nutsedge in turfgrass and ornamentals.

<b>Active Ingredient:</b>	
Sodium salt of bentazon* (3-(1-methylethyl)-1H-2,1,3-benzothiadiazin-4(3H)-one 2,2-dioxide)	44.0%
<b>Other Ingredients:</b>	56.0%
<b>Total:</b>	100.0%
*Equivalent to 4 pounds of bentazon per gallon.	

**KEEP OUT OF REACH OF CHILDREN /  
MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS**

**CAUTION /  
PRECAUCIÓN**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

See label booklet for complete First Aid, Precautionary Statements, Directions For Use, and Storage and Disposal.

### Manufactured For:

**Sharda USA LLC** 

7217 Lancaster Pike, Suite A  
Hockessin, Delaware 19707

EPA Reg. No. 83529-32

EPA Est. No. **AG** 72159-GA-001; **MC** 89332-GA-001; **SC** 39578-TX-001

The EPA Establishment Number is identified by the circled letters above that match the first two letters in the batch number.

<b>FIRST AID</b>	
<b>IF SWALLOWED</b>	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• <b>DO NOT</b> induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• <b>DO NOT</b> give anything by mouth to an unconscious person.</li> </ul>
<b>IF ON SKIN OR CLOTHING</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15 to 20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>IF IN EYES</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.</li> <li>• Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>HOT LINE NUMBERS</b>	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For 24-hour medical emergency assistance (human or animal) call <b>1-800-222-1222</b> . For chemical emergency assistance (spill, leak, fire, or accident) call ChemTrec at <b>1-800-424-9300</b> .	

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION.** Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

#### PERSONAL PROTECTIVE EQUIPMENT (PPE)

**Applicators and other handlers must wear:**

- Long-sleeved shirt and long pants
- Chemical-resistant gloves made of any waterproof material such as barrier laminate, nitrile rubber > 14 mils, neoprene rubber > 14 mils, or viton > 14 mils
- Shoes plus socks

Follow the manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

<b>USER SAFETY RECOMMENDATIONS</b>	
<b>Users should:</b>	<ul style="list-style-type: none"> <li>• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.</li> <li>• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.</li> <li>• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.</li> </ul>

#### ENVIRONMENTAL HAZARDS

For terrestrial uses, **DO NOT** apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment wash waters or rinsate. Bentazon, which is present in this product, is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

**Notice:** It is a violation of federal law to use any pesticide in a manner that results in the death of an endangered species or in adverse modification of their habitat.

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe consult the agency responsible for pesticide regulation.

The following Directions For Use are applicable for homeowner use of **BashAzon III** in established turfgrass and ornamentals. Read the entire label for Directions For Use and Precautionary Statements.

**POLLINATOR ADVISORY STATEMENT:**

This product may adversely impact the forage and habitat of local pollinators, such as the monarch butterfly (and its larvae), birds, or bats. Protect wildlife by following label directions, and making only directed applications.

**RUNOFF PREVENTION:**

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

### NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, nurseries, or greenhouses.

#### For Homeowner Use:

- DO NOT allow persons or pets to enter the treated area until sprays have dried.

#### Use Information

**BashAzon III** is a post-emergence herbicide for selective control of broadleaf weeds, annual sedges, and yellow nutsedge in the following use sites:

- Established turfgrass
- Ornamentals

**BashAzon III** does not control grasses. **BashAzon III** is effective mainly through contact activity; therefore, all target weeds must be thoroughly covered with spray. Large weed leaf canopies shelter smaller weeds and prevent adequate spray coverage.

### APPLICATION INFORMATION

#### Sprayer Equipment

Apply **BashAzon III** with handheld pump-up and knapsack sprayers, or hose-end type sprayers. Clean the sprayer thoroughly before applying **BashAzon III**, particularly if the herbicide previously used has the potential to injure turfgrass or ornamentals.

Apply **BashAzon III** with a minimum water volume of 1 gallon per 1,000 sq. ft. and a minimum spray pressure of 40 psi (measured at the boom, not at the pump or in the line).

#### Application Mixing Instructions

Fill a thoroughly clean spray tank 1/2 to 2/3 full of clean water. Add **BashAzon III** and shake or stir the spray solution to mix thoroughly. Add the remaining volume of water and shake or stir the spray solution to mix thoroughly. Mix only enough spray solution for one use. Use a fresh spray mixture for each application.

#### Addition of Oil Concentrate

A nonphytotoxic oil concentrate must be added to the spray tank for optimum weed control. The oil concentrate must contain either a petroleum-oil or vegetable-oil base and must meet all the following criteria:

- Nonphytotoxic
- Contain only EPA-exempt ingredients
- Provide good mixing quality in the jar test (see following)
- Successful in local experience

The exact composition of suitable products will vary; however, petroleum-oil or vegetable-oil concentrates should contain emulsifiers to provide good mixing quality. Highly refined vegetable oils are more satisfactory than unrefined vegetable oils.

#### Application Mixing Instructions with Oil Concentrate

Fill a thoroughly clean spray tank 1/2 to 2/3 full with clean water. Add **BashAzon III** and shake or stir the spray solution so **BashAzon III** and water mix thoroughly. Add the oil concentrate and the remaining volume of water. Again, shake or stir the spray solution so the **BashAzon III**, oil concentrate and water mix thoroughly. Mix only enough spray solution for one use; use a fresh spray mixture for each application.

#### Oil Concentrate Rate

For 1.0 to 2.0 gallons of water volume per 1,000 sq. ft., use 0.75 fl. oz. (5 teaspoons) of oil concentrate or a proportionate amount for other-sized areas.

Adding oil concentrate to **BashAzon III** may cause a slight leaf burn on desired plants (turfgrass, ornamentals) when relative humidity and temperature are high. Refer to your **BashAzon III** supplier for information on successful local experience before purchasing oil concentrate.

DO NOT apply **BashAzon III** plus oil concentrate with pesticides whose labels caution against their use with oil adjuvants.

#### Application Restrictions and Limitations

- DO NOT exceed a total of 1 lb. active ingredient (bentazon) per acre in a single application or 2 lbs. active ingredient (bentazon) per acre per year.
- DO NOT apply more than a total of 1.5 fl. oz. of **BashAzon III** per 1,000 sq. ft. per calendar year.
- Rainfall or sprinkler irrigation within 8 hours after application may nullify the effectiveness of **BashAzon III**.
- DO NOT apply during windy conditions because spray drift may cause damage to adjacent desired ornamental plants.
- DO NOT apply **BashAzon III** during prolonged periods of drought or during unseasonably cold weather because unsatisfactory weed control may result.
- DO NOT cultivate or mow within five days before or after **BashAzon III** application.

#### Weeds Controlled

Apply **BashAzon III** early post-emergence to small, actively growing weeds before they reach the maximum size listed in **Table 1**. Early application to newly emerged or small weeds will provide the most effective weed control. Delaying application will allow continuing growth beyond the maximum size stated and will result in adequate control.

Table 1. Weeds Controlled

Common Name	Scientific Name	BashAzon III Application Rate			
		0.55 Fl. Oz./1,000 Sq. Ft. (24 Fl. Oz./A) (0.75 lb. a.i./A)		0.75 Fl. Oz./1,000 Sq. Ft. (32 Fl. Oz./A) (1 lb. a.i./A)	
		Weed Growth Stage			
		Leaf Stage	Maximum Height (Inches)	Leaf Stage	Maximum Height (Inches)
Anoda, Spurred	<i>Anoda cristata</i>	Up to 6	3	6 to 8	4
Balloonvine	<i>Cardiospermum halicacabum</i>	2 to 4	2	4 to 6	3
Beggarticks	<i>Bidens frondosa</i>	Up to 6	6	6 to 8	8
Bristly starbur	<i>Acanthospermum hispidum</i>	NR	—	4 to 6	3
Buckwheat, wild	<i>Polygonum convolvulus</i>	Up to 4	3	4 to 6	5
Cocklebur	<i>Xanthium strumarium</i>	2 to 6*	6	6 to 10	10
Coffee Senna	<i>Cassia occidentalis</i>	NR	—	Up to 1 pinnate	2
Dayflower	<i>Commelina</i> spp.	Up to 6	4	6 to 10	8
Devil's claw	<i>Proboscidea louisiana</i>	NR	—	Up to 6*	3
Galinsoga	<i>Galinsoga</i> spp.	NR	—	Cotyledon to 6*	2
Groundsel, common	<i>Senecio vulgaris</i>	NR	—	2 to 10	6
Jimsonweed	<i>Datura stramonium</i>	Up to 6	6	6 to 10	10
Ladysthumb	<i>Polygonum persicaria</i>	Up to 6	6	6 to 10	10
Mallow, Venice	<i>Hibiscus trionum</i>	Up to 6	2	6 to 10	4
Mustard, wild	<i>Sinapsis arvensis</i>	Up to 6	4	6 to 10	8
Nutsedge, yellow	<i>Cyperus esculentus</i>	<b>See Special Directions for Problem Weeds.</b>			
Poinsettia, wild	<i>Euphorbia heterophylla</i>	2 - 4	4	4 to 8*	6
Prickly sida/Teaweed	<i>Sida spinosa</i>	Up to 6	3	6 to 8	4
Purslane, common	<i>Portulaca oleracea</i>	Up to 4	1	4 to 6	2
Ragweed, common	<i>Ambrosia artemisiifolia</i>	NR	—	4 to 6*	3
Ragweed, giant	<i>Ambrosia trifida</i>	NR	—	Up to 4	6
Redweed	<i>Melochia corchorifolia</i>	4 - 6	6	6 to 10	8
Sedge, Annual	<i>Cyperus compressus</i>	NR	6 to 8	NR	6 to 8
Sesbania	<i>Sesbania exaltata</i>	NR	—	3 to 5*	3
Shepherd's purse <sup>1</sup>	<i>Capsella bursa-pastoris</i>	Up to 6	4	6 to 10	8
Smartweed, Pennsylvania	<i>Polygonum pennsylvanicum</i>	Up to 6	6	6 to 10	10
Spurweed/Lawn burweed	<i>Soliva pterosperma</i>	NR	—	2 to 6	3
Sunflower, wild	<i>Helianthus annuus</i>	Up to 4	5	4 to 6	8
Thistle, Canada	<i>Cirsium arvense</i>	<b>See Special Directions for Problem Weeds.</b>			
Thistle, musk	<i>Carduus nutans</i>				
Velvetleaf	<i>Abutilon theophrasti</i>	Up to 4	2	4 to 6	5

\* DO NOT treat earlier than leaf stage shown. DO NOT count cotyledon leaves.

<sup>1</sup> DO NOT treat rosette before seed stalk appears.

NR = Not recommended for use.

### Special Directions for Problem Weeds

**Canada Thistle:** Apply 0.75 fl. oz. of **BashAzon III** per 1,000 sq. ft. when Canada thistle is from 8-inches tall to the bud stage. If desired control is not obtained with the first application, make a second application at the same rate 7 to 10 days later or when new growth appears.

**Musk Thistle:** Apply 0.75 fl. oz. of **BashAzon III** per 1,000 sq. ft. when Musk thistle is in the rosette stage no larger than 10 inches in diameter. If desired control is not obtained with the first application, make a second application at the same rate 7 to 10 days later or when new growth appears.

---

### Specific Use Site Information

---

#### Established Turfgrass

**BashAzon III** may be used on established bluegrass, fescue, bentgrass, Bermudagrass, Bahiagrass, centipedegrass, zoysiagrass, ryegrass, and St. Augustinegrass.

**BashAzon III** will control yellow nutsedge in established turfgrass. Refer to **Table 2** for water volumes and **BashAzon III** use rates.

To control yellow nutsedge, apply no more than 0.75 fl. oz. of **BashAzon III** per 1,000 square feet in a single application when plants are 6 to 8 inches tall. If desired control is not obtained, make a second application at the same rate 7 to 10 days later or when new growth appears. Apply no more than 1.5 fl. oz. of **BashAzon III** per 1,000 square feet per calendar year.

In unmowed turfgrass, make the first application of **BashAzon III** after emergence but before yellow nutsedge is 8 inches tall. Thorough spray coverage of yellow nutsedge is essential for maximum control. For best control, DO NOT mow turfgrass within 3 days before or after application.

Yellow nutsedge emerges May through July in the northern United States, but it emerges throughout the year in the southern United States. Plan initial applications when yellow nutsedge has emerged because **BashAzon III** will only control nutsedge plants that have emerged.

**Table 2. Application Rate for Established Turfgrass**

Spray Area (Sq. Ft.)	BashAzon III (Fl. Oz.)	Water <sup>1</sup> as Spray Carrier (Gallons)
200	0.15 (1 teaspoon)	0.2 to 0.4 (1.6 to 3.2 pints)
400	0.3 (2 teaspoons)	0.4 to 0.8 (3.2 to 6.4 pints)
1,000	0.75 (5 teaspoons)	1 to 2

<sup>1</sup> Quantity of water required to uniformly spray this area with your sprayer. Use a minimum water volume of 1 gallon per 1,000 sq. ft. with a minimum pressure measured at the nozzle of 40 psi.

Weeds also controlled by **BashAzon III** in turfgrass are: annual sedges, beggarticks, Canada thistle, chickweed, cocklebur, common groundsel, common purslane, galinsoga, jimsonweed, ladythumb, lambsquarters, musk thistle, shepherd's purse, smartweed, spurweed, velvetleaf, Venice mallow, wild buckwheat, wild mustard, and wild poinsettia. These weeds are not registered for control in California.

In unmowed turfgrass, make the first application of **BashAzon III** after emergence but before annual sedge and Canada thistle are 8-inches tall, and other annual broad-leaf weeds are 4 inches tall. For best sedge control, DO NOT mow within 5 days of application.

Weeds suppressed by **BashAzon III** in turfgrass include: common ragweed, giant ragweed, morningglory, and wild sunflower. These weeds are not registered for suppression in California.

Weeds not controlled by **BashAzon III** include: purple nutsedge, pigweed, plantain, dandelion, onion/garlic, wood sorrel, and spurge.

#### Turfgrass Restrictions and Limitations

In California, **BashAzon III** is registered for use only in established turfgrass to control yellow nutsedge.

- DO NOT apply **BashAzon III** to turfgrass that has been under stress such as drought, cold temperature, or injury from other herbicides.
- DO NOT apply **BashAzon III** to any newly seeded or newly sprigged turfgrass until seedlings or sprigs are well established or injury may result.
- DO NOT apply **BashAzon III** to golf course greens or collars.
- In perennial ryegrass, apply no more than 0.75 fl. oz. of **BashAzon III** per 1,000 square feet at one time. Make a second application no less than 21 days later.
- DO NOT apply no more than 64 fl. oz. (2 lbs. a.i./A) of **BashAzon III** per acre per year.
- DO NOT apply more than 32 fl. oz. (1 lb. a.i./A) of **BashAzon III** per acre in a single application.
- DO NOT apply more than 2 applications per year.
- DO NOT make second application until at least 7 days after first application.
- When treating turfgrass with **BashAzon III**, avoid over the top spraying of adjacent ornamental trees, shrubs, and flowers unless otherwise specified in this label.

---

### Ornamentals

---

**BashAzon III** is not registered for use on ornamentals in California.

Apply **BashAzon III** at the rates listed in **Table 1** when weeds are actively growing and before they reach the maximum size.

**BashAzon III** may be applied over the top of certain ornamental species listed in **Table 3**. DO NOT apply oil concentrate in tank mix with **BashAzon III** over the top of ornamentals. Because of the variability within species, in application technique, and manner of use, it has not been fully determined if **BashAzon III** can be safely used on all ornamental plants under all growing conditions. Therefore, the user should apply to a few plants to determine if **BashAzon III** can be safely used for broad-scale application. Some leaf speckling and leaf bronzing may occur under certain conditions.

For all other landscape and ornamental trees, shrubs, flowers, and nursery plants not listed in **Table 3**, apply **BashAzon III** as a directed spray away from the foliage of desired plants. DO NOT apply **BashAzon III** as a directed spray under the tree line or over the roots of sycamore and rhododendron or injury may occur. DO NOT apply if the risk of injury to these plants is not acceptable.

**Table 3. Ornamental Species for Over-the-top Applications**

<b>Common Name</b>	<b>Scientific Name</b>
Alumroot	<i>Heuchera</i> spp.
Apple (non-bearing)	<i>Malus</i> spp.

(continued)

**Table 3. Ornamental Species for Over-the-top Applications (continued)**

Common Name	Scientific Name
Snapdragon	<i>Antirrhinum majus</i>
Yew	<i>Taxus</i> spp.
Yew hybrids	<i>Taxus x media</i>
Yew, Japanese	<i>Taxus cuspidata</i>
Yew, Southern	<i>Podocarpus macrophyllus</i>

\* Make no more than one application per crop per growing season. Some species within genera may vary in degree of tolerance. Prior to application across a large number of plants within the same species, test **BashAzon III** on a small number of plants of that species and observe for 2 weeks. **DO NOT** apply crop oil with applications of **BashAzon III** over the top to ornamentals or injury may occur.

#### Ornamental Restrictions and Limitations

- DO NOT apply **BashAzon III** to desirable plants that have been subject to stress conditions such as hail damage, flooding, drought, extreme heat, or widely fluctuating temperatures or crop injury may result.
- DO NOT apply **BashAzon III** if desirable plants show injury (leaf phytotoxicity or plant stunting) produced by prior herbicide applications because this injury may be enhanced or prolonged. Apply no more than 4 pints (2 lbs. a.i./A) of **BashAzon III** per acre per year.
- DO NOT apply more than 2 pints (1 lb. a.i./A) of **BashAzon III** per acre in a single application.
- DO NOT apply more than 2 applications per year.
- DO NOT make second application until at least 7 days after first application.

## STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Keep pesticide in original container. DO NOT put concentrate or dilute spray into food, feed, or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably in a locked storage area. DO NOT store diluted spray.

**Pesticide Disposal and Container Handling: Nonrefillable container. DO NOT reuse or refill this container.**

**If empty:** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

### IMPORTANT INFORMATION

#### READ BEFORE USING PRODUCT

#### CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. The Directions for Use of this product reflect the opinion of experts based on field use and tests. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Sharda USA LLC or Seller. Handling, storage, and use of the product by Buyer or User are beyond the control of Sharda USA LLC and Seller. To the fullest extent allowed by State law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Sharda USA LLC and Seller harmless for any claims relating to such factors.

Sharda USA LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to or beyond the control of Seller or Sharda USA LLC, and Buyer and User assume the risk of any such use. SHARDA USA LLC MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent allowed by law, Sharda USA LLC or Seller shall not be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF SHARDA USA LLC AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT SHALL BE, AT THE ELECTION OF SHARDA USA LLC OR SELLER, THE REPLACEMENT OF THE PRODUCT, OR COMPENSATION LIMITED TO DAMAGES NOT EXCEEDING THE FAIR MARKET PURCHASE PRICE, AND SHALL NOT INCLUDE INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

Sharda USA LLC and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by the duly authorized representative of Sharda USA LLC.

All trademarks are the property of their respective owners.

#### PRIMEROS AUXILIOS

<b>SI SE INGIERE</b>	<ul style="list-style-type: none"><li>• Llame de inmediato a un centro de control de envenenamientos o a un médico para consejo de tratamiento.</li><li>• Si la persona puede tragar, haga que beba un vaso de agua lentamente.</li><li>• NO induzca el vómito a menos que así se lo indique un centro de control de envenenamientos o un médico.</li><li>• NO administre nada por boca a una persona que haya perdido el conocimiento.</li></ul>
<b>SI CAE EN LA PIEL O LA ROPA</b>	<ul style="list-style-type: none"><li>• Quítese la ropa contaminada.</li><li>• Enjuague la piel inmediatamente con bastante agua por 15 - 20 minutos.</li><li>• Llame al centro de control de envenenamientos o a un médico para consejo de tratamiento.</li></ul>
<b>SI ENTRA EN CONTACTO CON LOS OJOS</b>	<ul style="list-style-type: none"><li>• Mantenga los ojos abiertos y enjuáguelos lenta y cuidadosamente con agua, durante 15 a 20 minutos.</li><li>• Si utiliza lentes de contacto, retírelos después de los primeros 5 minutos, luego continúe enjuagando los ojos.</li><li>• Llame al centro de control de envenenamientos o a un médico para consejo de tratamiento.</li></ul>
<b>NÚMERO DE TELÉFONO DIRECTO</b>	
Cuando llame a un centro de control de envenenamiento, o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto. Para asistencia médica de emergencia las 24 horas (para personas o animales), llame al <b>1-800-222-1222</b> . Para asistencia en caso de emergencia química (derrame, fuga, incendio o accidente), llame a CHEMTREC al <b>1-800-424-9300</b> .	

## DECLARACIONES PREVENTIVAS

### RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS

**PRECAUCIÓN.** Daño si se ingiere o es absorbido por la piel. Causa irritación moderada en los ojos. Evite el contacto con la piel, los ojos o la ropa. El contacto prolongado y frecuente con la piel puede causar reacciones alérgicas en algunos individuos.

### EQUIPO DE PROTECCIÓN PERSONAL (PPE, POR SUS SIGLAS EN INGLÉS)

Los aplicadores y otros manipuladores de pesticidas (plaguicidas) deberán usar:

- Camisa de manga larga y pantalones largos
- Guantes resistentes a productos químicos fabricados con cualquier material impermeable, como laminado de barrera, goma de nitrilo > 14 mils, goma de neopreno > 14 mils o vitón > 14 mils
- Zapatos y calcetines

Siga las instrucciones del fabricante para la limpieza y el mantenimiento del equipo de protección personal (PPE, por sus siglas en inglés). En caso de no existir dichas instrucciones de lavado, utilice detergente y agua caliente. Mantenga y lave el PPE por separado del resto de la ropa.

### RIESGOS AMBIENTALES

Para usos terrestres, **NO** aplique directamente a cuerpos de agua, en áreas donde haya aguas superficiales, o en áreas intermareales que se encuentren bajo el nivel de altura máxima promedio del agua. **NO** contamine cuerpos de agua cuando disponga de las aguas de lavado de equipo o el líquido de enjuague (rinsate). Se sabe que el bentazon, presente en este producto, puede filtrarse a través del suelo hacia las aguas subterráneas en determinadas condiciones como resultado del uso agrícola. El uso de este producto químico en zonas con suelos permeables, especialmente donde el nivel freático es poco profundo, puede contaminar las aguas subterráneas.

**Aviso:** Es una violación de la ley federal utilizar cualquier pesticida de una manera que resulte en la muerte de una especie en peligro de extinción o en una modificación adversa de su hábitat.

El uso de este producto de forma contraria a lo indicado en su etiqueta constituye una infracción de la ley federal.

## ALMACENAMIENTO Y DESECHO

NO contamine el agua, los alimentos ni los forrajes durante el almacenamiento o el desecho.

**Almacenamiento de Pesticidas:** Conserva el pesticida (plaguicida) en su envase original. NO coloque el concentrado ni la mezcla de pulverización diluida en envases para alimentos, piensos o bebidas. Evitar la contaminación de piensos y alimentos. Conservar en un lugar fresco y seco, preferiblemente en un área de almacenamiento cerrada. NO guarde el aerosol diluido.

**Desecho de Pesticidas y Manipulación de Envases:** Envase no rellenable. NO reutilice ni rellene este envase.

**Si está vacío:** Tire a la basura u ofrezca para el reciclaje si está disponible.

**Si está parcialmente lleno:** llame a su agencia local de desechos sólidos para instrucciones de eliminación. Nunca coloque el producto no utilizado en ningún desagüe interior o exterior.

# BashAzon III

Post-Emergence Herbicide  
For homeowner use to control broadleaf weeds, annual sedges,  
and yellow nutsedge in turfgrass and ornamentals.

**Active Ingredient:**

Sodium salt of bentazon\*  
(3-(1-methylethyl)-1H-2,1,3-benzothiadiazin-4(3H)-one 2,2-dioxide) . . . 44.0%

**Other Ingredients:** . . . . . 56.0%

**Total:** . . . . . 100.0%

\*Equivalent to 4 pounds of bentazon per gallon.

## KEEP OUT OF REACH OF CHILDREN CAUTION / PRECAUCIÓN

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

**Manufactured For:** Sharda USA LLC, 7217 Lancaster Pike, Suite A, Hockessin, Delaware 19707

EPA Reg. No. 83529-32 EPA Est. No. (AG) 72159-GA-001; (MC) 89332-GA-001; (SC) 39578-TX-001

The EPA Establishment Number is identified by the circled letters above that match the first two letters in the batch number.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION.** Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### ENVIRONMENTAL HAZARDS

For terrestrial uses, **DO NOT** apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment wash waters or rinseate. Bentazon, which is present in this product, is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

**Notice:** It is a violation of federal law to use any pesticide in a manner that results in the death of an endangered species or in adverse modification of their habitat.

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe consult the agency responsible for pesticide regulation.

## STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

**Pesticide Storage:** Keep pesticide in original container. DO NOT put concentrate or dilute spray into food, feed, or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably in a locked storage area. DO NOT store diluted spray.

**Pesticide Disposal and Container Handling: Nonrefillable container. DO NOT reuse or refill this container.**

**If empty:** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
